ANARCHISTS ATTEMPT TO DESTROY CATHEDRAL

PLOT UNEARTHED TO CREATE REIGN OF TERROR IN NEW YORK--TO KILL MANY WEALTHY MEN--WRECK BANKS

(By Associated Press.)
NEW YORK, March 2.—An attempt to destroy St. Patrick's cathedral with a bomb, and the arrest of two men by detectives who had been informed for months of their activities, followed police announcement of arrests that balked an anarchist plot to kill with bombs Carnegie, the two Rockefellers and other wealthy men. Thereafter the anarchists, according to the police, planned to inaugurate here a reign of terror comparable only to the days of the French revolution. Armed men were to appear simultaneously in various parts of the city, shoot and pillage; banks were to be blown up and many wealthy men slain. The wrecking of the cathedral was to be the signal. The next move was to place bombs in the homes of Carnegie, the Rockefellers and the Vanderbilts. Frank Abarno and Charles Carbone were arrested. Abarno threw a bomb inside the church, but the fuse was extinguished by detectives, one of whom had gained Abarno's confidence and was supposed to be a member of the gang.

CATTLEMEN WATCH PROGRESS OF BILL

RESOLUTION PROPOSED RELATIVE TO CHANGING THE STATE BOUNDARIES

(Special to the Bonanza.)
CARSON CITY, March 2.—The Bradshaw bill, making the superintendent of the state police ex-officio warden of the state penitentiary, is one of the overshadowing matters now before the legislature, sharing honors with the compromise tax commission bill. A number of prominent men, particularly cattle raisers, are in Carson City from the eastern part of the state, watching, and possibly assisting in, the tax commission battle.

A bill has been introduced by Senator Scanlan of Nye, repealing the poll tax law. It is proposed by Dr. Whitesides, speaker of the house pro tem, in a joint resolution that the summit of the Sierras be made the boundary line between California and Nevada. It is proposed that California appoint a commission to meet with a Nevada commission to adjudicate

PYTHIANS INSTALL TWO NEW OFFICERS

RANK OF PAGE WILL BE CONFERRED AT MEETING MONDAY NIGHT

At a regular meeting of Mizpah lodge No. 25, K. of P., held last night at their castle hall, Brother W. G. Walker, the amiable deputy sheriff of this county, and Brother T. A. Macduff, ex-mayor of Rye Patch, were elected and duly installed into the offices of vice-chancellor and prelate respectively of the lodge, with all the honors that the Pythian ritual could bestow. Brother T. A. Macduff will confer the rank of page next Monday night and it is his earnest desire to meet all his Pythian brothers who can possibly attend.

As a prelate, Brother Macduff bids fair to out rival the Reverend Billy Sunday, and any member who cannot attend the next meeting will certainly miss a great treat.

COMMISSIONERS PASS ON BILLS

The board of county commissioners is still in session. Yesterday afternoon and this morning were consumed in passing upon bills. A number of road matters and other business will be considered later in the meeting.

WILL ARGUE APEX CASE MARCH 8TH

NO STENOGRAPHER AVAILABLE, MILL OF JUSTICE SUSPENDS OPERATIONS

Judge Averill is badly crowded with work at present. He had to stop the hearing of the Bowler vs. Brann case this morning, because the regular court stenographer is busied at Goldfield on the Finn murder trial and the substitute was called away by other duties. If a stenographer were available he would be on the bench the remainder of the week. Meanwhile he is at work on cases already submitted. The argument of the West End-Jim Butler case comes on March 8, and may require a number of days. There will be eminent legal talent here. The argument has been postponed several times, but it now appears as though there will be no further delay.

LEASERS POSSESS GREAT CONFIDENCE

HAVE \$3.30 ROCK ON SURFACE AND ARE DRIVING CROSS-CUT TUNNEL

William Noel and C. C. Jones, who have a lease on the Lutz property on the slope of a porphyry hill, a fourth of a mile beyond the 76, are in town today with some very lively looking rock. Samples were run that returned \$3.20 in gold and ten cents in silver. There is a formation 18 feet between walls that is largely quartz. The tunnel is in 100 feet and is expected to tap the vein at a vertical depth of 100 feet. Despite the storm, about fifteen people visited the property yesterday. Nothing could be seen on the surface, while the tunnel has not yet reached formation. The owners of the lease have projected the Murray vein through their ground and are confident that their draughting is correct.

ARRAIGNMENT OF STATE MILITIA AT SCENE OF STRIKE

ROCKEFELLER CHARGED WITH TREATING HIS EMPLOYEES WITH INJUSTICE

(By Associated Press.)
WASHINGTON, March 2.—Scathing arraignment of the Colorado militia for its treatment of the striking miners and their families is contained in a report submitted to the house of representatives by the mines and mining subcommittee, which investigated conditions in the coal fields. It is declared that John D. Rockefeller, Jr., did nothing to improve the conditions of his employees. He has done much to uplift people elsewhere with money made in Colorado, while 6,000 miners were apparently disregarded. "Rockefeller may win the strike by starvation under the false banner of liberty for the workingman, but we do not believe he will maintain peace under such conditions."

The request was made that if the road is unable to meet its obligations the line be sold at auction.

THREE AUTOS HURT IN ONE COLLISION

BLINDED BY SNOW, MACHINE CRASHES DOWN HILL INTO TWO OTHER CARS

Three automobiles in one smashup is rather an unusual occurrence, but that is exactly what happened yesterday afternoon during the blizzard. Dr. Cowden's automobile went dead on him the day before a short distance beyond the Halifax and he had to trudge to town. William Kelley took the foundry car out yesterday to tow Dr. Cowden's machine in and he was progressing steadily with the double load when he saw another machine approaching.

It was driven by Jack Berg, coming in from Round Mountain. The snow glazed his windshield so that he did not see the other two cars standing in the road until too late to avoid an impact. He swerved just a second too late and rammed one of his lamps into the radiator of the foundry car, thrusting it back against the Cowden car, smashing its radiator also. The damage is not very heavy, but the coincidence of the triple accident, coupled with the previous breakdown, is somewhat unusual.

WEE BABY IS FOUND DESERTED IN SNOW

INHUMAN MOTHER ABANDONED IT IN THE MIDST OF RAGING BLIZZARD

Hearing a plaintive cry in the night, Clem Hertel left his comfortable fireside and hurried out into the storm. Guided by the walls and sobbing, he came to a place where a little baby, but a few hours old, without a particle of covering, lay in the snow. Gathering it tenderly in his arms he conveyed it to warmth and shelter, where nourishment was given it and it was wrapped in warm blankets.

The police and sheriff's office spent the remainder of the night searching in vain for the inhuman parent, but were unsuccessful, meanwhile Clem stayed on the job and by daylight the piteous moans had ceased and it was sleeping peacefully. Clem's eyes bedewed as he gazed down at his helpless little ward, whom he had rescued from certain death. He says: "The poor little thing was all legs and ears and voice, but I could not help but love it."

This afternoon a voice like that of Maud's sounded at the door insistently demanding admittance, and Clem grudgingly turned the little burro over to its mother.
